## NEW YORK STATE ELECTION.

## Complete Table of Majorities for all the

Countles in the State. TERRIBLE OVERTHROW OF THE VAN BUREN DYNASTY THE NATIONALS AREAD OF THE PERE SOILERS. The returns from the interior of the State, although

still incomplete, enable us to make up the following table of majorities on the State ticket, between the national democrats and Van Buren free soilers, by which it will be seen that the State ticked nominated by the national democrats is ahead of that of the free soilers in the State, by an aggregate majority of over four thousand-showing a national democratic gain, compared with 1848, of ten thousand. This result, so unexpected to all parties, is a terrible rebuke to the Cubinet of Marcy & Co., and seals the fate of the Van Buren dynasty beyond all future hope of re-

In this table we omit the whig vote in each county, as the result is well known, namely—that the whigs have a plura ity in most of the counties of the State, and an aggregate vote in the whole nearly equal to that of the two sections into which the democratic party is divided. Those friends of the administration who relied on the representations of Marcy and John Van Buren, that the democracy of the State would sustain them through the free soil ticket, will now be amazed, perhaps, to find that the Van Buren, or soft ticket, so called, which they called the regular nomination of the democratic party, has obtained less than one-fourth of the votes of the people of the Empire State polled at the recent election, as the total aggregate will be nearly as follows :- Whigs, 200,000; national democrats, 106,009; Van Buren free soilers, 100,000. This is a remarkable commentary on the alledged sagacity and influence of Secretary Marcy, and on the effect of the operations of John Van Buren and other leaders of the Van Buren free soil faction in this State.

In the table of majorities, we have taken the vote between George W. Clinton and Isaac A. Verplank, the national democratic and free soil candidates for Secretary of State ; and for the few counties from which we have taken few or no returns, we have taken the division of parties in 1848 as the basis of estimate. For the purpose of comparison, we annex the votes of each county, for Cass and Van Buren, in

York, Richmond, Albany, Greene, Sullivan, Oneida, and Otsego counties, which result is to be attributed to the influence of national and State patronage, and of the party newspapers, arrayed principally in favor of the free soil ticket in some of these counties. We may also name the personal and family influence of Governor Seymour, Attorney General Chatfield. a id other Van Buren leaders in Oneida, Otsego and Sullivan. materially reduce the aggregate majority we have estimated for the national democrats in the State. They have abundant cause for congratulation and satisfaction at the result of this unparalleled election, which will also furnish food for contemplation to politicians throughout the Union.

COMPARATIVE VOTE BETWEEN CLINTON AND COOLSY. It is well known that the imprudent speech made by Mr. Cooley, the national democratic candidate for Comptroller, at Syracuse, a week before the late election, in which he abused the President in the most bitter terms, was highly disapproved of by his political friends; and consequently Mr. Cooley has run much below his colleagues on the State ticket. We give a few examples of the vote between Mr. Cooley and George W. Clinton, the candidate

It appears that Mr. Cooley suffered worse in this city than in other parts of the State: and although he ran 1,500 ahead of his free soil opponent, Mr. Kelly, in this city, he is over 5,000 below his colleague, Mr. Clinton, who, however, had the advantage of receiving the votes of the "know nothing" native American secret club, and others, who struck o Leavenworth, the whig candidate.

## Election Items

In Delaware county, the State ticket voted for by the anti-renters contained the names of Mather and Cooley, national democrats; with Burnett, Grover, and Edgerton free soilers; and Roggles and Penio, democrats, for Jadges. In Hir sdale, Catteraugus county, the free soil or soft

S ate ticket received one vote, except Grover, who ran a hend of his ticket and got two votes. A letter to the Albany Arges, dated Chester, Warren

True, there was one hard half bolter who voted part of the soft ticket for State officers, but Verplank did not get one single vote.

A letter to the Argus, dated Ticonderega, Essex county,

says - "I give you the result of our election. We had no soft votes."
The Syracuse Chronicle, free soil, says:—
"The size of the hard vote in this county has surprised everybody, and it would not be strange if they should prove the stronger of the two loco-foco factions in the

State."
In Matteawan, district No. 2, of Fishkill, Dutchess county, the vote stands thus on the State ticket:—National democrat, 127; whig, 60; free soil, 1.

The softs or free collers also polled one vote only in the town of Wright. Schoharie county, and one vote in the third district of Alexandria, Jederson county, where the national democrats polled 62 votes.

THE HUNDRED MILE MATCH! We yesterday gave the result of the hundred mile match for \$4,000, the distance to be performed in nine consecutive hours, and which was completed by the horse—a large bay gelding—in eight hours, fifty-five minutes, and fifty-three seconds. Our information in regard to Mr. Costar owning the horse and making the match was incorrect. He was for merly the owner of the horse, but parted with him before the match was made.

The following is a table of the time of each mile,

from beginning to end, which, however, makes it eight seconds more than was given by the judges. The slight discrepancy occurred by one judge keeping the single miles, and another the total time :-Miles. Time each Mile. Total Time. Remarks.
